

1000 Meheen Pressure Sensitive Labeler

Description

The model 1000 Meheen is a fully automatic labeler designed for the accurate placement of labels on round bottles. The Meheen 1000 has an extended conveyor that allows easy infeed of bottles from the filler. The discharge collection tray is a standard feature.

Consistent, precise label application is controlled through the use photoeye detection, photoeye gap detection, and PLC controls.

With available options, the 1000MH can be configured to label tapered containers and apply label coding. The inclusion of stepper motors provides faster and even more accurate label application.

Versatile, easy to operate, and economical, the model 1000MH provides an excellent entry level labeling solution for beverage labeling including beer. It is designed to work in tandem with the Meheen family of bottlers with 4-head standard and 6-head optional.
